Leetcode | 500+ GFG | IBM Certified Full stack developer
Gaya, Bihar, India

Summary

"To light up the world in your own unique way, you must discover what lights you up."

Instantaneously after pressing play on my first Python tutorial video, the spark I was looking for was lit. The sentence "print('hello world')" astounded me. I began to consider programming languages. When I went to my first Python lesson and realized I needed to put my knowledge and enthusiasm for problem solving together, I knew I had struck gold.

I joined Lakshmi Narain College Of Technology University, Bhopal after completing my secondary and senior secondary education in Gaya with the goal of excelling in both my field and in life. I am now studying a Bachelor of Technology with a focus in data science with machine learning in computer science and engineering.

At LNCT UNI, I was introduced to new individuals, technology, and other essential components for my development. I'm dependable, disciplined, and determined, according to my friends. My friends frequently criticize me for my ability to pay close attention to even the smallest things, but I secretly appreciate this quality in myself. I took part in Google Interland, unlocked multiple certificates, and intend to continue doing so in the future.

So far I have Python, SQL, HTML, CSS and Java (basics) under my belt. I've started improving the languages I already know and I'm enthusiastically grabbing onto any other programming languages, frameworks, principles I can integrate into the coding web in my head.

I like to treat people with respect. I enjoy helping people and I love to learn about new technologies... story of my life :)

Since you've made it this far, thank you! Additionally, you have a good attention span. Please feel free to direct me; I'd appreciate suggestions on how to improve my abilities.

Experience

Freelance

Freelance Web Developer

August 2023 - Present (6 months)

GeeksforGeeks

Campus Mantri

December 2022 - Present (1 year 2 months)

Campus Ambassadors are preferred for the Campus Geek and Interaction with new people from your college, university, country, and all over the world through GeeksforGeeks WhatsApp groups

August 2023 - November 2023 (4 months)
Bhopal, Madhya Pradesh, India

Prodigy InfoTech
Web Development Intern
September 2023 - October 2023 (2 months)

The internship is scheduled to commence on the 1st of September, 2023, and will conclude on the 30th of September, 2023, resulting in a one-month duration for the program

Kiya physiotherapy
Web Development Lead
August 2023 - September 2023 (2 months)

Kiya Physiotherapy (kiyaphysiotherapy.com) is a website dedicated to promoting and providing information about a physiotherapy center. As a freelancer, the website was created with the aim of showcasing the services, expertise, and facilities offered by the physiotherapy center.

The website serves as a comprehensive platform where visitors can learn about various physiotherapy treatments and techniques, gain insights into the benefits of physiotherapy, and understand how the center can assist them in their journey to better health and well-being. It provides detailed information about the team of qualified physiotherapists, their areas of specialization, and the personalized care they offer to their patients.

Additionally, the Kiya Physiotherapy website offers features such as appointment scheduling, allowing potential patients to conveniently book appointments online. The website also includes testimonials and success stories from previous clients, showcasing the positive outcomes achieved through the center's services.

Overall, Kiya Physiotherapy website aims to provide a user-friendly experience, informative content, and a professional online presence for the

physiotherapy center, ultimately attracting and engaging visitors who are seeking effective physiotherapy solutions for their health concerns

GDSC LNCTS

Event Organizer

April 2023 - April 2023 (1 month)

Here's an update about the amazing experience we had at the 'Chat GPT Chronicles'!

Hey Google Dev Community! #

As the organizer, I couldn't be happier with the response GDSC LNCTS received. The event was a massive success, with 1200+ registrations in just 3-days, collaborating with Microsoft Learn Student Ambassadors

We had some amazing speakers share their invaluable insights during the expert talk, including Ankur Gupta & Harsh Vishwakarma as our Guest speakers.

This event essentially had 4 segments including the Expert Session, Debate Contest, Quiz, and a Blog Writing Competition- all centered around Chat GPT.

The event was organized in collab with Microsoft Learn Student Ambassadors, Dpt of Engineering Mathematics (LNCTS), and the Dept of CSE (LNCTS). Special thanks to Dr. Sanjeet Kumar, and Dr. Bhawana Pillai for their immense support.

Chat GPT Chronicles was centered to spread awareness among students regarding the budding AI Tools & Technologies. We were blown away by the enthusiasm and passion of the students who participated in the various competitions and activities.

Never to miss mentioning my tireless Organizing Team Projjwal Mitali, Akarsh, Anshul, Megha, Animesh, Vidhi, Sanskar, Prajal, Jeff, ASHISH, Ankit, Prashant & GDSC Core Team. We couldn't have been successful without you!

Kudos to all the swag winners! We hope that you continue to learn and grow in the field of AI. We too thank our partners GitHub, Semikolan & ConnectUp

Lastly, we want to thank everyone who participated in the event, and we hope that you had a great time. 'Chat GPT Chronicles' was an unforgettable experience, and we can't wait to organize more such events in the future

Teachnook

Campus Ambassador

December 2022 - March 2023 (4 months)

GDSC LNCTS

Volunteer

January 2023 - January 2023 (1 month)

Volunteering at the web development workshop organized by GDSC LNCTS was an enriching experience for me. As a computer science student, I was excited to be a part of the team that was going to help participants learn the intricacies of web development.

Volunteering at the web development workshop not only helped me develop my leadership and mentoring skills but also gave me an opportunity to connect with fellow computer science enthusiasts. It was an experience that I will cherish for a long time
